

NATCO
P.O. Box 209
Flippin, AR 72634

Dear NATCO,

I am writing to support your application for the Community Connect grant. With my current lack of access to any sort of broadband connection, I am not able to complete the same activities as people living and working in suburban or urban areas. My current connectivity is provided by:

- ☐ NATCO's copper DSL service at a speed of: _____
- ☐ A cellular hotspot provided by: _____
- ☐ Satellite internet service provided by: _____
- ☐ I do not subscribe to any internet service provider.
- ☐ I do not have any internet service available.

NATCO's fiber internet would significantly improve my quality of life in the following ways:

- ☐ Working remotely.
 - ☐ Applying for new jobs.
 - ☐ Operating my small business: _____
 - ☐ Maintaining my farm.
 - ☐ Accessing telehealth services.
 - ☐ Accessing educational opportunities.
 - ☐ Completing school-related work.
 - ☐ Staying connected to family and friends.
 - ☐ Enjoying entertainment opportunities.
 - ☐ Other: _____
- _____
- _____

If NATCO were awarded a Community Connect Grant, I would likely need the following speeds in order to improve my quality of life by completing the above listed tasks:

100/100Mbps

500/500Mbps

1Gig/1Gig

Thank you for providing my community with the potential to have access to vital services needed for work, health, education, safety, and community connectivity.

Thank you,
